

Reporting by Large Multiunit Establishments.

- Activities of the Office of Chief Economist.
- Develop Recommendations and Special Interest Activities.
- Closing Session.

The meeting is open to the public, and a brief period is set aside, during the closing session, for public comment and questions. Those persons with extensive questions or statements must submit them in writing to the Census Bureau Committee Liaison Officer. Individuals wishing additional information or minutes regarding this meeting may contact the Officer as well. Her address and phone number are identified above.

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should also be directed to the Committee Liaison Officer.

Dated: September 15, 1998.

James F. Holmes,

Acting Director, Bureau of the Census.

Cornell University; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.

Docket Number: 98-035. **Applicant:** Cornell University, Ithaca, NY 14853. **Instrument:** Scanning Tunneling Microscope, Model JAFM-4500XT. **Manufacturer:** JEOL Ltd., Japan. **Intended Use:** See notice at 63 FR 40473, July 29, 1998.

Comments: None received. **Decision:** Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. **Reasons:** The foreign instrument provides: (1) operation at temperatures to 500°C and (2) measurement of the motion of the cantilever tip in the plane of the sample (frictional interaction). A domestic manufacturer of similar equipment advised August 28, 1998 that

(1) these capabilities are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Room 4211, Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C.

Docket Number: 98-043. **Applicant:** University of Pennsylvania, Electron Microscopy Core Laboratory, B-110 Richards Building, 36th and Hamilton, Philadelphia, PA 19104-6085.

Instrument: Electron Microscope, Model JEM-1010. **Manufacturer:** JEOL, Ltd., Japan. **Intended Use:** The instrument will be used to study the effects of various agents or disease conditions on cellular morphology determined by routine ultrastructural analysis. In addition, the instrument will be used to teach the techniques of electron microscopy and ultrastructural analysis to graduate students, postdoctoral fellows and faculty members.

Application accepted by Commissioner of Customs: August 28, 1998.

Docket Number: 98-044. **Applicant:** University of North Dakota School of Medicine & Health Sciences, Department of Anatomy & Cell Biology, 501 North Columbia Road, Box 9037,

Grand Forks, ND 58202. **Instrument:** Electron Microscope, Model H-7500. **Manufacturer:** Hitachi, Japan. **Intended Use:** The instrument will be used for biological studies including observations of normal and diabetic human eye and kidney tissues, laboratory animal central nervous system tissues and scleral tissues from the posterior portion of the eye globe in newborn chicks. In addition, the instrument will be used in the training of undergraduate, graduate and postgraduate students in the use of transmission electron microscopy for biological research. **Application accepted by Commissioner of Customs:** August 28, 1998.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.

National Oceanic and Atmospheric Administration

[I.D. 081398A]

Endangered and Threatened Species; Retention of Species on Candidate Species List Under the Endangered Species Act (ESA)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of retention of Atlantic sturgeon on list of candidate species.

SUMMARY: NMFS retains Atlantic sturgeon (*Acipenser oxyrinchus oxyrinchus*) on its list of candidate species. In a notice published today in the **Federal Register**, NMFS and the U.S. Fish and Wildlife Service (Services) found that listing Atlantic sturgeon under the ESA is not warranted at this time. The finding summarizes the Services' concerns regarding the species. NMFS encourages Federal agencies and other appropriate parties to take Atlantic sturgeon into account in project planning.

DATES: September 15, 1998.

FOR FURTHER INFORMATION CONTACT: Marta Nammack or Terri Jordan at (301) 713-1401.

SUPPLEMENTARY INFORMATION: In a separate **Federal Register** document published today, the Services find that listing Atlantic sturgeon in the United States as a threatened or endangered species is not warranted at this time. The finding also summarizes the
